**Who has watched the pre-class
YouTube video? (there is no penalty for
saying no 😊)**

① Start presenting to display the poll results on this slide.

Who are we?

- Chek is a researcher in (Immersive) HCI
- Yet is the Head of Solutions Architect from Meta
- Sean is a Solutions Architect from Meta
- Mud runs a startup in blockchain games and AI, and experience in building XR games
- Jian Jie is a current Senior who has taken this module before.

Centre for
IMMERSIFICATION

[recap] Dimensions of RV Continuum

- EWK is how much system understands the real world
- RF is how realistic the assets are
- EPM is how interaction affords realism

<https://doi.org/10.1117/12.197321>

[recap] Revisiting the RV Continuum

- combined the RF and EPM into IM (our THE article came before this 😅)
- added CO to represent the user
- note that this but one academic paper
- common perception of MR is different

<https://doi.org/10.3389/frvir.2021.647997>

**Which of the following describes
immersion from a systems
perspective?**

① Start presenting to display the poll results on this slide.

Which of the following describes immersion from a systems perspective?

☒ Wide FOV

☒ Higher spatial presence

☒ Higher place illusion

☒ 8K Resolution display

☒ Lower cybersickness

☒ 6-DOF inside-out tracking

**Which of the following describes
immersion from an experiential
perspective?**

① Start presenting to display the poll results on this slide.

Which of the following describes immersion from an experiential perspective?

☒ Wide FOV

☒ Higher spatial presence

☒ Higher place illusion

☒ 8K Resolution display

☒ Lower cybersickness

☒ 6-DOF inside-out tracking

**What is/are the best type(s) of data to answer this
research question?**

① Start presenting to display the poll results on this slide.

What is/are the best type(s) of data to answer this research question?

☒ Observations

☒ Think-aloud during the experience

☒ Validated Questionnaires

☒ Post-experience interviews

☒ Physiological sensing

☒ Telemetry

**"This one feels dizzier than the previous one. "
- What dimension of cybersickness is this?"**

① Start presenting to display the poll results on this slide.

"This one feels dizzier than the previous one. " - What dimension of cybersickness is this?

✓ Disorientation

✓ Nausea

✓ Oculomotor

✓ Involvement

✓ Realness

**What is the main affordance on a
haptic glove for an experienced
VR user?**

① Start presenting to display the poll results on this slide.

What is the main affordance on a haptic glove for an experienced VR user?

✓ Reach out to touch things in the virtual environment

⊙ Pick up the VR controller to interact with the virtual environment

⊙ Wave hand in the air

⊙ Hug another character in the virtual environment

**Which design provides the right
affordance for a door that is meant to
be pushed?**

① Start presenting to display the poll results on this slide.

Which design provides the right affordance for a door that is meant to be pushed?

☒ Door with a large handle

☒ Door with a small handle

☒ Door with no handle and a flat metal plate

☒ Door with a twist knob

☒ Door with a large sign that says "PUSH"
